

Service Opportunity: Media Team Member

Description: The Media Team works to create a vibrant virtual presence for UUCC. No experience necessary -- just bring your enthusiasm. We are creating a vibrant online presence that may include podcasts, videos, or other online content. You may learn to make and edit audio and video, be a podcast host behind the mic, or otherwise help behind the scenes to make our services and messages visible beyond our walls. We can show you every step, if you want to learn, or learn from you if you have experience in creating online content.

Expected Term of Service: No limit.

This opportunity will enable you to: Be a podcast host, produce audio and video, learn how to create quality audio and video content, learn how to stream video online.

Skills needed: Being willing to learn and dependable. Basic computer skills are an asset. Any experience with audio or video production is a plus but not required. Enthusiasm is a must!

Training: We will help you learn how to produce audio and video content, edit audio and video, stream video online, learn about copyright law -- what we can and cannot publish. Learn how to operate video and audio recording equipment. Larry Lile will train.

Number of Positions Open: Multiple.

Additional Information: We hope that folks who miss the worship service, or are at distant locations, can participate virtually because of your efforts.

If interested, contact: Larry Lile, 573-397-5414, lile@lile.biz
